With BF315 you can control up to 14 drives individually. Use the **channel buttons** to define the channel of the respective drive before teaching-in individual drives.

Channel **AL** is reserved for the control of all connected channels, allowing you to control all drives simultaneously.

2. Installation

1. Turn the handheld transmitter to the back side.
2. Press the two plastic clips using your thumb and index finger of one hand inwards at the same time and keep them pressed firmly.
3. Press the battery compartment outwards using the fingernail of the thumb of your other hand.
4. Turn the remote control to the front and pull out the battery compartment completely.
5. Insert the battery into the battery compartment with the plus pole facing up.
6. Close the battery compartment.

Please refer to the operation instructions of the LE-series drive you have received for the procedure of teaching-in and end position setting.
